

Just the Facts

The 2006 growing season started with a mild spring, which was followed by a dry, hot summer.

These factors contributed to excellent acid levels in the grapes, balanced canopies and small flavor packed berries. Surprisingly, this Diva is very approachable graciously offering a delightful blend of butterscotch, strawberry-vanilla on the nose. Soft and round on the palate with light milk chocolate vanillin finish. Enjoy Diva during the summer heat or if it's cold outside by a toasty fireplace. Try savoring this wine with strawberry cheese cake or slices of kiwifruit with kumquat poppers.
