

Just the Facts

The 2006 growing season started with a mild spring, which was followed by a dry, hot summer. These factors combined with balanced canopies and small berries contributed to full flavors and excellent acid levels in the resultant wine. The 2006 Naughty continues with just the right balance of Oak to please the nose while retaining a partial ML for a buttery mid-palate sensation. Bright vanilla notes blend nicely with ripe lemon-lime for a creamy texture. Start off by pairing with a classic Caesar salad and dig into grilled rock lobster tails for the main course.
